The right way on stage

 **Wireless  
Bluetooth**

## MIXLIGHT

DIGITAL MIXER WITH EFFECTS AND INTEGRATED MIDI SOUND BOARD.

**Mixlight** is ideal for anyone who plays and sings using a Computer or tablet. With **Mixlight** you can control the mixing of voices, instruments and Midi or Audio backing track.

**Mixlight** is a digital mixer that has an Audio and Midi Sound Board able to play Midi files and Mp3/Wave. The Mixer section has 4 mono channels (Mic/Line) + 3 Stereo channels, two of which are dedicated to Midi and Audio Backing Track.

**Mixlight** includes a 3-voices Harmonizer controllable via Midi through specific backing tracks programmed with the track of the choirs. Each mono channel has two adjustable and editable effects, in addition to 3-band equalization is

also present on Stereo channels and 3 pre-sets for effects can be stored. Each channel can be adjusted on the Auxiliary output. **Mixlight** software is controlled by a handy Graphic and backlit display.

The General Midi generator coming from Merish4, has a memory of 256 Mb for 108 notes of polyphony. The generator includes 866 sounds between acoustic and percussive, with 47 Drum Kits. The Sound was designed by M-Live, thanks to his long experience gained over thirty years in the Midi sector, to achieve maximum compatibility with General Midi productions.

It connects via Bluetooth for remote controlling functions and Midi Wireless connection.
